

CRISTIAN GIMENEZ

FULL STACK DEVELOPER

+34 685 890 502
CRISTIANGIMENEZ86@GMAIL.COM
BARCELONA, SPAIN

PROFILE

Full Stack .NET Developer with 10+ years of experience designing and implementing scalable, high-performance applications. Successfully delivered projects that improved system efficiency by 25%, reduced maintenance costs by 30%, and enhanced user satisfaction by 20%. Passionate about leveraging cutting-edge technologies like .NET Core, Angular, React, cloud-based architectures, and microservices, to solve complex business challenges.

SKILLS

- Backend: .NET Core, .NET Framework, Entity Framework, RESTful APIs, xUnit, Moq.
- Frontend: Angular 12, React 18, TypeScript, JavaScript.
- Databases: SQL Server, Oracle, DynamoDB, CosmosDB, Azure Table Storage.
- Cloud: AWS (EC2, Lambda, API Gateway), Azure (Functions, Key Vault, Service Bus).
- DevOps: Azure DevOps, Octopus deploy, Docker containers, CI/CD pipelines.
- Methodologies: Agile (Scrum/Kanban), DDD, TDD.
- Soft Skills: Leadership, problem-solving, teamwork, adaptability, time management, mentoring.

EXPERIENCE

Full Stack .NET Core Developer

Travelport (Barcelona, Spain) | February 2024 – Present

- **vPayment Project:**
 - Led the development of a virtual credit card generation system (AMEX, Mastercard) from inception to deployment, ensuring high security and scalability.
 - **Achievements:**
 - Delivered the project to a client, achieving a 95% satisfaction rate.
 - Implemented Azure Key Vault and Auth0, reducing security vulnerabilities.
 - **Technologies:** .NET 8, Azure Functions, Entity Framework Core, Cosmos DB, Table Storage, Azure Key Vault, Docker containers, Azure pipelines, Auth0.

Full Stack .NET Core Developer

UST (Barcelona, Spain) | October 2021 – January 2023

- **RB Iberia (Burger King Portugal & Spain) Project:**
 - Successfully led the integration of 300 Burger King stores into the existing ecosystem by developing a .NET 7 Hosted Service that processes data, performs business validations, and calls API endpoints, ensuring seamless data flow and system compatibility.
 - **Achievements:**
 - Successfully completed the project under tight deadlines, ensuring zero financial loss.
 - Improved system efficiency by 25% through optimized data processing and validations.
 - Introduced Agile methodologies to the client, improving project planning and delivery.
 - **Technologies:** .NET 7, SQL Server, Entity Framework.

- **Dell Project:**
 - Played a key role in refactoring one of Dell's most critical applications to improve code quality and overall performance.
 - **Achievements:**
 - Enhanced application performance by 30% through code optimization and refactoring.
 - Achieved 80% test coverage by writing missing unit tests and implementing best practices in testing.
 - **Technologies:** .NET Core 3.1, Microservices Architecture, Oracle, xUnit, Moq.

Freelance .NET Core Developer

Rosario, Argentina | November 2019 – October 2021

- Worked on various projects involving .NET Framework and .NET Core, focusing on bug fixes, performance improvements, and legacy application migrations.
 - **Achievements:**
 - Migrated 5+ legacy applications to modern architectures, reducing maintenance costs by 30% and improving scalability.

.NET Core Developer

Adrenalin Media (Sydney, Australia) | October 2018 – April 2019

- **Hungry Jack's (Burger King) Project:**
 - Enhanced a high-traffic application with thousands of active users by adding new features, fixing bugs, and improving performance.
 - **Achievements:**
 - Improved app stability, reducing connectivity-related issues by 40%.
 - Increased positive feedback on app stores by 20%.
 - **Technologies:** .NET Core 2, AWS (CloudFront, CloudWatch, API Gateway, EC2, Lambda Functions, DynamoDB, Redis, S3 Bucket, SQS, SNS, SES), Azure DevOps and Octopus Deploy

Full Stack Developer

Stratos Technology Partners (Christchurch, New Zealand) | June 2016 – June 2018

- **WineWorks Project:**
 - Rebuilt a legacy application from scratch, migrating 200+ clients to the new platform.
 - **Achievements:**
 - Reduced errors in production work orders by 30% through improved validations.
 - Enhanced user experience with a redesigned AngularJS interface.
 - **Technologies:** .NET Web API, AngularJS, SQL Server, Entity Framework.
- **Metrocard Project:**
 - Enhanced the payment system for Christchurch's public transport, allowing users to check card balances, top-up cards, and update personal information.
 - **Achievements:**
 - Developed a secure and reliable portal for over 200,000 active users, improving system stability and reducing transaction errors by 20%.
 - **Technologies:** .NET Web API, AngularJS, SQL Server, Entity Framework.

Freelance Developer

RosarioBus (Rosario, Argentina) | November 2015 – April 2016

- **IntraBus Project:**
 - Developed a web application to improve communication and scheduling for bus drivers.
 - **Achievements:**
 - Reduced paper usage by 70% by replacing timetables and forms with online versions.
 - Provided a reliable and faster way for bus drivers to receive notifications.
 - **Technologies:** AngularJS, Web API 2, Entity Framework, SQL Server.

.NET Developer

Globant (Rosario, Argentina) | July 2013 – November 2015

- **Tenaris - Dispatch Planning Project:**
 - Developed a system for managing dispatched baskets, transport types, and notifications.
 - **Achievements:**
 - Improved user ability to view and modify critical information in real-time.
 - Streamlined business processes and reduced manual errors.
 - **Technologies:** ASP.NET MVC 3, WCF Services, Entity Framework, SQL Server.

SharePoint 2010 Developer and Administrator

NEORIS (Rosario, Argentina) | November 2011 – July 2013

- **NeoEnergia Project:**
 - Developed custom SharePoint solutions for NeoEnergia group.
 - **Achievements:**
 - Created a common layout and merged functionalities across all companies.
 - Improved collaboration and document management processes.
 - **Technologies:** SharePoint 2010, Visual Studio, SharePoint Designer.

EDUCATION

Bachelor's Degree in Computer Systems Analysis

Instituto Superior San Pablo, Villa Constitución, Santa Fe, Argentina

Additional Courses:

- *Angular: From zero to Expert (Udemy, 2023)*
- *React: From zero to Expert (Udemy, 2024)*

CERTIFICATIONS

- **Google Associate Cloud Engineer** | April 2023 | ID: aOL1JI
- **Google Cloud Digital Leader** | December 2022 | ID: QSLPH9

LANGUAGES

- Spanish: Native
- English: Advanced
